## Program Overview

Launched in 1994, Families and Communities Together (FaCT) is a network of 16 Family Resource Centers (FRCs) located throughout Orange County's highest-risk communities providing essential family support services, education and resources. FaCT is administered by the County of Orange Social Services Agency, in partnership with the FaCT Coalition of Charitable Ventures. Charitable Ventures facilitates the planning, implementation, evaluation and support of services and activities that maximize the benefits offered by the FRCs. Programs and services receive funding from federal, state and county agencies including U.S. Department of Health and Human Services-Promoting Safe and Stable Families, the County of Orange Social Services Agency, California Work Opportunity and Responsibility to Kids (CalWORKs), as well as volunteer, in-kind support and private donations.

## Our Vision

*Is that all our children grow up in stable, nurturing families and safe, supportive communities which promote healthy development and provide opportunities for children, youth and adults to achieve their full potential as caring, responsible, and productive members of society.*

## Our Mission

*Is to identify and promote promising and best practices, train, fund, and advocate for Family Resource Centers (FRCs) to be Orange County's community-based platform for prevention activities and family support services.*

## What is a FaCT Family Resource Center?

Each FRC is a family-friendly, community-based site that provides access to comprehensive prevention and treatment-oriented social, educational, and health services for all families, including birth, blended, kinship, adoptive, and foster families. FRCs serve as vehicles for engaging local residents and community organizations in the identification and resolution of community concerns related to raising healthy children. Every FRC is unique to its community; services are offered by multicultural and multilingual staff that reflect the surrounding neighborhoods and the families they serve.

### Core FRC Services

Services offered at all FaCT FRCs

- Comprehensive case management team services
- Counseling
- Domestic Violence Personal Empowerment Program (PEP)
- Family Support Services
- Information and Referral Services
- Parenting Education

### Additional FRC Services

- Child Development Activities
- Emergency Assistance
- Family Economics & Self-Sufficiency
- Family Health & Wellness
- Family Literacy & Education

## Service Definitions

### CalWORKs Family Stabilization

The Family Stabilization Program provides intensive case management and services to Welfare-to-Work clients who are experiencing an identified crisis or situation. A Specialized Case Manager teams with a Family Support Advocate from the FRC, completing an assessment of the strengths and needs. The Welfare-to-Work clock is paused and the family has the opportunity to participate in case management, family support and in-home support services through the FRC with the goal of stabilizing the family and preventing further incidents of crisis. The program utilizes services such as Behavioral Health Services, Domestic Abuse Services, Public Health Nurse, employment support, child support, transportation, and referrals to community organizations to stabilize and assist families in crisis.

### Case Management Team (CMT) Services

This integrated multidisciplinary team meets on a weekly basis to assess families with multiple needs and to effectively coordinate cases. The goal is to link each family to services either at the FRC or in the community to meet those needs. By working in teams, service providers are able to share ideas and resources available. This forum increases efficiency of case management and promotes quality of service delivery. Family members are invited to participate in the meetings and share thoughts regarding their strengths, needs, and capacity to participate in services.

### Community Leadership Programs:

**Community Engagement Advisory Committee (CEAC)** – Community leadership programs are offered at each FRC. CEACs offer a vehicle for engaging each FRC's local community. The composition of each FRC's CEAC will vary, depending on the specific goals and services provided by the FRC. CEAC should consist of community members such as parents, youths, teachers, businesses, religious community leaders, law enforcement, and city representatives. The CEAC's overall goal is to create meaningful change at the community and personal level by implementing a specific community agenda developed in conjunction with its corresponding FRC.

**Youth Action Council (YAC)** – Youth community leadership programs share similar goals and functionality of a Community Engagement Advisory Committee. The YAC group is comprised of youth who are interested in learning leadership and community engagement skills

through community service opportunities, workshops, team-building activities, and peer support.

## **Counseling (Individual, Family, Group & Crisis)**

Our FRCs provide counseling services to individuals, children, families, and groups. This service has the goal of improving family functioning, increasing social support, teaching problem solving, reducing the effects of trauma, and strengthen coping skills. Non Medi-Cal, underinsured, and clients experiencing barriers to services are prioritized. Clients may receive up to 20 sessions.

## **Differential Response (DR)**

This service is offered to families referred by Children and Family Services (CFS) during an investigation of alleged child abuse. A CFS Senior Social Worker teams with a Family Support Advocate from the FRC, completing an assessment of strengths and needs. The CFS case is closed and the family has the opportunity to participate in case management, family support and in-home support services through the FRC with the goal of stabilizing the family and preventing further incidents of abuse or neglect.

## **Domestic Violence Personal Empowerment Program (PEP)**

FACT FRCs offer this ten-week educational support program designed to empower victims to break the cycle of domestic violence through education on the dynamics and the effects of domestic violence, and to help victims protect children who live in domestic violence homes. Topics include safety planning, boundaries, anger management, legal aspects of domestic violence, working through denial, and maintaining healthy relationships.

## **Family Support Services**

A Family Support Advocate provides assessment, crisis intervention, ongoing support and referrals to resources and services for families with multiple-needs. The goal is to teach and empower clients to access community resources and strengthen problem-solving skills. Services are provided at the FRC or in-home depending on client needs and safety considerations. An individualized case plan is developed for each family with their input regarding barriers, strengths and needs. Every effort is made to ensure positive participation in services to stabilize the family and create safe and healthy home environments for children.

## Information and Referral Services

Each FRC has a dedicated staff member offering information and referrals for any family, individual, or agency requesting assistance. This service is designed so that each specialist is the expert in their community and can link clients to resources and services that meet their varied needs. Examples include mental health services, basic needs resources, utility assistance, job training, legal assistance, substance abuse services, parenting, educational programs, job training, recreational programs, and more.

## Parenting Education

FACT FRCs offer an evidenced-based parenting curriculum that promotes improvement of parenting skills and family functioning by teaching parents/caregivers about child development, behavior management, and coping skills. Parenting courses focus on positive parenting techniques, effective discipline, and developmentally appropriate parenting skills. As applicable, parenting education emphasis shall be placed on the prevention of recurrence of maltreatment and/or shall address attachment, bonding, and traumatic loss issues.

Other services not defined vary across FRCs. *Please contact the FRC for details.*
